AKORN is pleased to announce that through a special collaboration with

ENGINEERS AUSTRALIA, NORMAN DISNEY & YOUNG
AND VICTORIA UNIVERSITY

it is able to offer an opportunity to a staff member from your school to participate in the inaugural

Engineering Teachers @ Work Professional Development Program

- Dates: Thursday 9 and Friday 10, December 2010
- Venues: Thursday – Norman Disney & Young – 115 Batman St, West Melbourne
  Friday – Victoria University – School of Engineering & Science (Electrical Engineering) - Footscray Park Campus
- Time: 9:30 am – 4:00 pm daily
- Who: Science/Engineering teachers who are interested in:
  - Promoting student learning and development in Engineering
  - Providing a balance of theory and practice
  - Joint planning
  - Addressing the current shortage of Engineers in Australia
- Cost: $125 per school

Research confirms that teachers need both in-house and external professional development to enhance their capabilities. This curriculum-focused professional learning will explore some of the disciplines of Engineering and provide participants with knowledge, tools and suggested class activities to enable them to take Engineering into their classrooms.

Registration numbers will be strictly limited.
Please express an interest by Monday 8th November to:
