Are you interested in a career in aerospace or avionics? Are you unsure about the options available at university?

The Australian Youth Aerospace Forum (AYAF) is a five-day interactive forum open to year 11 and 12 students from all over Australia who are interested in a career in the Australian Aerospace Industry. AYAF will highlight aerospace engineering and avionics options for university and higher education, and the employment possibilities in the industry after graduation.

AYAF runs from 4-8 July 2011 with accommodation on campus at the University of Queensland, Brisbane for $200 or $175 for early bird applications.

Attendees will hear from lecturers, industry specialists and current engineering, aerospace and avionics students about pathways into the aerospace industry, including new technologies and research projects. A hands-on approach to experiencing the excitement of aerospace is fostered through group projects.

For more information and an online application form, please visit our website at www.ayaf.com.au

4-8 JULY 2011
FOLLOW THE 10-STEP INSTRUCTIONS TO MAKE THIS FLYER INTO A PAPER PLANE

2. Fold top left hand corner into center, along this line.
